

Low Voltage Switchgear

Overview

- New line-ups/add-ons to vintage gear
- Match and line existing equipment
- Custom designs/arrangements
- Quick ship available

Ratings

- Metal enclosed 100kA SC rated
- 635vAC max
- Up to 5000A
- 2200vAC dielectric
- 200kA symmetrical short circuit

Safety features

- Closed door breaker draw out
- Standard safety shutters
- Remote racking/breaker operation
- Arc mitigating relay options

**'Built to ANSI
C37.20.1 standards'**

Designed for ease of installation and maintenance

- Easily accessible bus/wiring designs
- Abundant cable space
- Convenient control wiring interfaces
- Multiple bus transition levels

Controls and application expertise

- PLC/Relay based transfer schemes
- Remote operator stations
- Complex protection schemes
