

Quick Ship Switchgear Program

Quick Ship Switchgear

*“New switchgear in days
not weeks”*

*Meeting the needs of your blow up emergency
or urgent schedule*

Match existing line-up or complete new line-up

- Match and line with most models
- Burn out emergency or urgent schedule
- Inventory of NEW Eaton VCP-W breakers, components and modules
- Match to switchgear for 2400V-15kV air or vacuum breakers
- Couples to main bus without transition section in most cases

Small enough to be responsive, big enough to get the job done

MV Metal-clad Switchgear

Built to ANSI C37.20.2 standards

Tested as a complete system

20+ years of satisfied customers
Service oriented engineering and
manufacturing team
